

The brand you know & trust.

Reliable • Durable • Efficient • Superior Performance

Trust Delco Remy to provide:

- **Starters:** Designed to start heavy-duty and off-road vehicles in all conditions and environments, Delco Remy starters are engineered to perfection. Available proprietary features also protect the starter from system problems including over cranking, low battery capacity, voltage spikes, high-starting circuit resistance, or operator misuse.
- **Alternators:** From brushless designs with fewer moving parts to remote sense to improve battery charge time, Delco Remy technology is second to none.

Delco Remy works closely with the OEMs to provide the highest performing, premium quality product for new vehicles. This translates into the same level of performance and quality with Delco Remy aftermarket starters and alternators. **And the support to back it.**

Delco Remy, keeping more vehicles running longer than any other brand on- and off-road!

Trysome Auto Electrical is a Master Warehouse Distributor in Southern Africa.
