

N400 HID

Heavy-duty 5000 HR*
35w bulb pre-fitted
(* Depending on
switch cycle)

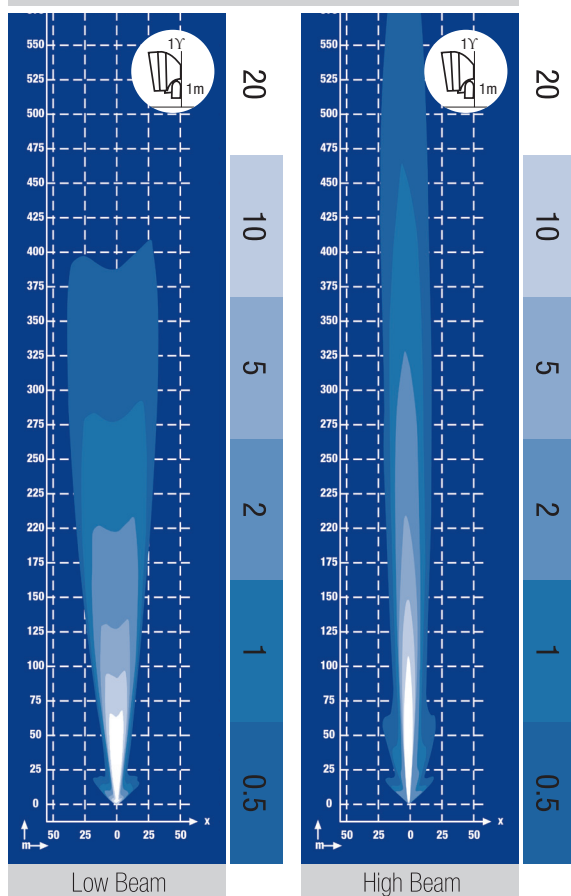

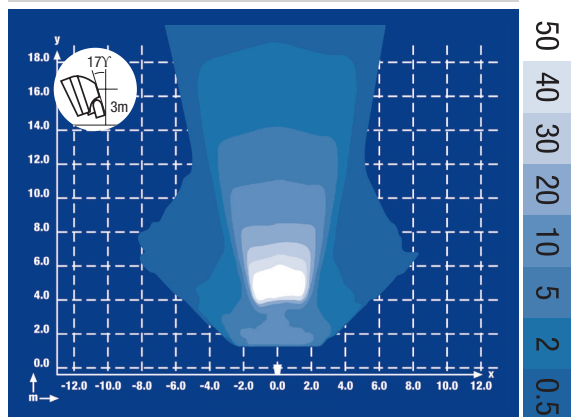

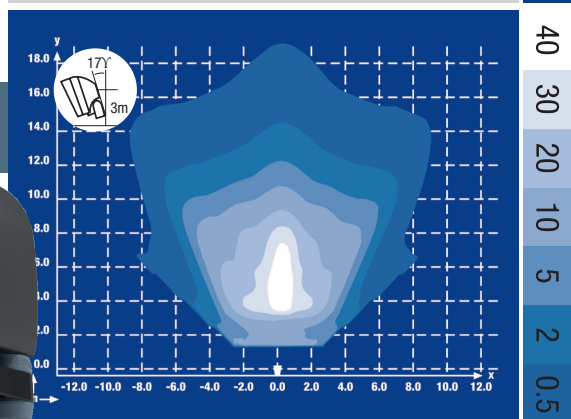

N400 with handle
and switch

Lighting Patterns N400 HID

lux

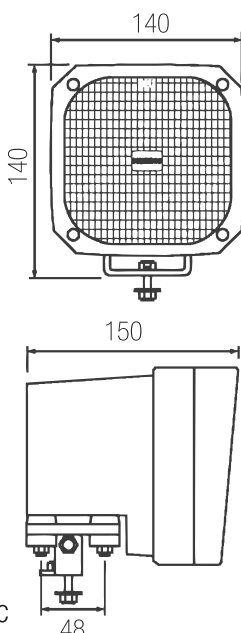

The compact design of this work light with integral ballast, enables the use of Xenon lighting on equipment where space is at a premium.

The high-intensity Xenon GDL delivers a superior quality of illumination exactly where it is needed.

Developed for continuous use in harsh environments, it has an encapsulated ballast for maximum protection against shock and vibration, meeting the most stringent requirements.

Features

- Nominal current:
Start up: 12V, 6.0A
24V, 2.9A
Steady state: 12V, 3.7A
24V, 1.7A
- Extremely shock and vibration resistant
- Ballast: Integrated
- Nominal voltage: 12V, 24V
- Colour temp: 4250K
- Operating temp: -40°C to +85°C
- IP rating: IP 67
- Vibration: 12 G
- Shock: 50 G
- Salt mist: IEC 60068-2-11
- Lens: Hardened Glass
- Weight: 1.4kg
- Body: Glass fibre reinforced plastic

Part no.	Volts	Watt	Light Pattern	Connection
