

T720019834

The blue lights on forklifts serve a clear purpose: to alert pedestrians and colleagues on the job. These lights contribute to a safer working environment when using forklifts by alerting people when the forklift is reversing. Since drivers of forklifts often have restricted visibility when reversing, they may inadvertently overlook people. Lighting is an effective way to make the presence of the forklift known to others in the workplace. This is of great importance as forklift accidents (fatalities) still occur.

FEATURES:

- ◆ 10 – 80 Vdc Input Voltage
- ◆ Square Beam LED Forklift Light
- ◆ 10 w
- ◆ Beam: Square
- ◆ Light colour: Blue
- ◆ Lighting materials: Aluminium
- ◆ 78.9 x 80 x 108.4 mm

These products may not be stock items. Please speak to our sales representative about lead times. Lead times, price, and availability can only be determined on receipt of an official quote from our supplier. This can sometimes take up to 3 days.
