

Versatile, LED and Reflective ID Boards

Iconiq Ultra Modular LED ID Vehicle Boards can be programmed like a digital LED ID sign, with the added benefit of retaining their display when the vehicle is powered down.

Reflective by day

Light-up by night

Modular LED ID Vehicle Boards

Features:

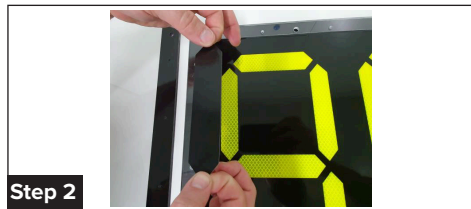

- 0-9 Changeable Display
- 3-Character Display
- 305 mm Character Height
- 24 Volts
- 1.0 Amp Draw @ 24 V
- Extremely Robust
- Highly Visible
- 5 kg

Display Setting Instructions:

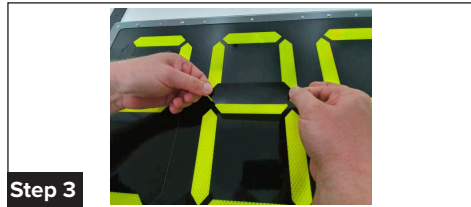

Step 1

Remove all M4 x 35 mm socket head cap screws and the fully-sealed front housing.

Step 2

Apply segment blank stickers to create the desired number display.

Step 3

Be aware that there are two different types of segment blanks for horizontal and vertical application. **Ensure segment blanks are firmly pressed into position, are sitting flat and cover all the yellow segments prior to replacing the front housing.**

Step 4

Replace the front housing and tighten all M4 x 35 mm socket head cap screws. **Your Iconiq Ultra LED ID Sign is now ready to fit to your vehicle.**

Kit Parts:

- Assembled Pins: 860 (w) x 600 (h) mm
