

Trysome is the
official distributor
for Mitsubishi
Electric in Africa.

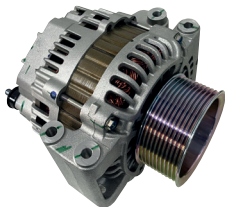

Alternators

The Mitsubishi Electric range of alternators includes a full catalogue of authentic alternators, from heavy-duty parts designed for durability to lighter-weight components for everyday passenger vehicles.

- Maximum generation efficiency with reduced noise.
- Unique design with winding technology and an exclusive cooling structure.
- High-durability alternators are designed to withstand over a million kilometres.
- Superior quality, exceeding every industry standard for vibration and heat.

Starter Motors

Mitsubishi Electric offers Starter Motors that promise durability and reduced fuel consumption, with a high power-to-weight ratio and enhanced performance.

Whether you need a heavy- or light-duty starter motor, all Mitsubishi Electric alternators and starter motors are 100% authentic. Our manufacturers develop vehicle parts for the top global automotive providers, so you can count on high-quality and expert manufacturing.

- Manufactured to the highest possible quality to ensure customer satisfaction.
- Our starter motors are designed to reduce fuel consumption. Our models are lightweight and have a high power-to-weight ratio, reducing the weight of your vehicle and limiting excessive consumption of fuel.
- Ergonomic design and high torque
- Reduced battery discharge thanks to a low current draw.
- Rapid restart
- Safe and stable temperature control means no need for OCP (over-crank protection).
- Durable body with enhanced endurance and dust resistance.
