

Innovative professional tools used wherever top results are expected!

360° rotatable crimping with 8 lockable positions

Optimal square crimping profile

Self-guiding jaws

RENNSTEIG TOOLS

KNOW-HOW IN YOUR HAND

Whether at a construction site, in a workshop or on an aircraft, user requirements are very diverse. What all users share are the highest standards for their work, as well as the highest demands on the ergonomics and practical functionality of the tools they use.

With their innovations, high-quality materials, precise finishing and long-life design, Rennsteig tools are what professionals look for in their daily work.

Rennsteig Cable and Connector Tools now available in Southern Africa via Trysome Auto-Electrical Engineering outlets.

THAT'S RENNSTEIG

ALWAYS A STEP AHEAD

As technology continues to progress, new tools are needed to work faster, more precisely and more economically with these technologies. Rennsteig are experts at developing these tools and adapting them to shifting market demands and user needs.

Over 50 international patents are impressive confirmation of Rennsteig's lead on world markets.

- Combines the features of crimping pliers with front and side feed in one universal tool
- Automatic square crimping of insulated and uninsulated ferrules according to DIN 46 228
- Covers a large range of cross sections without any adjustment of the tool
- Possibility of crimping extra long ferrules up to 16 mm in one operation
- High-precision die geometry leads to a clearly defined crimp shape of the ferrule
- Hand force optimized design of mechanical structure and improved ergonomics for fatigue-free operation

OE No.	Finish	Profile	Capacity		Length (mm)	Weight (g)
			mm ²	AWG		
610 190 6	chrome plated		0.14 - 16.0	26 - 5	185	490

Freely accessible crimping area

Super-slim and practical tool design allows for accessibility even in restricted work locations, e.g. inside a control cabinet

For a large range of ferrule sizes to produce even, square crimping profiles with superior reliability of pull-out forces

This may not be a stock item. Please speak to your sales representative about lead times. Lead times, price and availability can only be determined on receipt of an official quote from our supplier. This can sometimes take up to 3 days.
