Safety Solutions LED Buggy Whip Flags Ensure Visibility On Site!

Maximise the visibility of your light-duty vehicle and improve site safety with a customised LED whip light.

The LED aerials on the flags are made from heavy-duty fibreglass, meaning they are flexible and strong enough to withstand the rough conditions of a mine site.

The rod is equipped with a spring-mount base, strategically designed to enhance durability and prevent breakage when the rod is driven under a carport.

FEATURES

- High-quality, bright LEDs
- 9-33 Operating Voltage/ Rated Voltage
- Low power requirement
- Available from 1-2.4 m lengths
- With spring mount
