LAZER

HIGH PERFORMANCE LIGHTING

WHY BUY A LAZER PRODUCT?

Founded on the principles of bringing world-class technology to its customers, **LAZER** Spotlights seamlessly merge high-performance capabilities with automotive-grade quality standards.

The **LAZER** Grille Integration Kits include bespoke mounting brackets that allow for quick and easy fitting of Lazer High Performance LED Spotlights within the front grille of the most popular road cars, bakkies, and light commercial vehicles.

SEE MORE. GO FASTER. GO SAFER.

WARRANTY STATEMENT

Trysome warrants that all products will be covered for manufacturing faults. Trysome's warranty does not, however, extend to rectifiers, regulators, globes, fuses, or diodes.

All products supplied by Trysome are supplied and provided on the condition that we cannot be held responsible in the event that they are used for any other purpose than that specified by the manufacturer. Trysome's warranty, therefore, does not cover misuse, abuse, incorrect fitment, or application.

The customer or purchaser accepts that it is their responsibility to ensure that the product is used in accordance with the manufacturer's instructions.

The commencement date of all warranties is the date of invoice to the purchaser, unless otherwise agreed by Trysome in writing.

For bulk discounts on premium brands contact:
Dawid.Boshoff@trysome.cc

SERVICE

Trysome has its own service department with qualified technicians so that, unlike many wholesalers, we are able to provide you, our Customer, with a complete after-sales service.

Note:

- Trysome Auto Electrical Engineering (Pty) Ltd reserves the right to change terms, conditions and specifications shown in this catalogue at any time.
- Some names and part numbers are used for reference purposes only.
- Some of our products are manufactured to order so please allow lead times.
- The information contained herein is deemed to be correct at the time of going to print, but Trysome assumes no liability for typographical errors or omissions.
- Copyright 2025 by Trysome Auto Electrical Engineering (Pty) Ltd. All rights reserved.
- E&OE

Trysome Auto Electrical Engineering (Pty) Ltd is the authorised distributor of the brands it markets.

NEW ARRIVALS!

Stainless-Steel Toolbox Canopies

SAFE • SECURE • STYLISH • PRACTICAL • HIGHLY DURABLE

Our universal, one-size-fits-all **Marauder Toolbox Canopies** are fabricated from Stainless Steel for an attractive and highly durable finish.

Our **Marauder Stainless-Steel Field-Service Toolbox Canopies** are a practical way of mobilising your workshops for use in the harsh and rugged mining and industrial sectors. You can secure every tool and piece of equipment in a space designed specifically for it.

When operating remotely, efficiency, accessibility, and practicality are essential to **delivering optimal uptime** for your customer, despite the environment.

Standard Accessories:

25 L Stainless-steel Water Tank with External Tap

Shocks on Internal Flap

Heavy-Duty Push Locks (Keyed Alike)

Internal 8-Drawer Toolbox

Heavy-Duty Drawer Slides

Powder-Coated Doors and Drawers

Optional Extras:

- Interior Lighting
- Inverter
- Rear Spot Light
- Dual-Battery System
- Kraftwerk Tools
- Mine-Light Bracket
- Tailgate Cover & Vice

Internal Set-up Customisable

Supplied, assembled, & installed within 14 Days!

Sealed Maintenance-Free Batteries *Maximum power, every time!*

Trysome boasts a broad auto-electrical product range which includes the **Trylec**, **TrylecHD**, and **TrylecXHD** Premium Battery Range.

When reliability is everything you need to get going quickly, our batteries are perfect. Whether it's for trucks, buses, or construction vehicles the ultra stable impact-proof polypropylene casing and high-performance specifications are specially designed to meet high-endurance demands.

Key advantages:

- Silver Calcium
- Fully sealed maintenance-free (reduces costs and risks)
- Ultra longer service life
- Massive cranking power
- Extreme cycle endurance
- Best in class against spill and leakage
- Optimised power for guaranteed starting in all temperatures
- Outstanding recharge acceptance
- Highest vibration resistance - V3 rating
- Labyrinth safety lid - with central degassing
- Integral flame arrestors
- 24-month warranty

OBJECT DETECTION SYSTEM

BLIND SPOT COVERAGE FOR THE LARGEST VEHICLES IN THE WORLD!
Giving you operational peace of mind.

COMING SOON
PreView Sentry 79 GHz
Detects objects up to
40 m ahead.

T175215913

PreView® Sentry

PreView Sentry accurately identifies the location and velocity of **up to 16 people or objects simultaneously**. Sentry has a fully adjustable detection zone, with the ability to detect objects from the face of the radar **up to 30 metres**, and the width of the detection zone is adjustable to fit almost all vehicle types.

T175215912

PreView® Side Defender II

PreView Side Defender II, the industry's most advanced side object detection solution, has been **developed specifically for the over-the-road (OTR) markets** including trucking, municipalities, waste, and recycling. The Side Defender II system actively warns operators with audible and visual alerts, in order for them to take the appropriate actions to mitigate collisions.

- Rugged, Reliable Object Detection Technology
- Reduce and Eliminate Preventable Collisions
- Decrease Vehicle Downtime
- Improve Efficiency of Work Sites
- Keep People and Property Free from Harm

OVERHEAD VOLTAGE DETECTION

ONE - TOUCH
Exclusion Zone

The **ProxyVolt PV8-PRO** is a next generation power line warning system supporting the safe operation of plant and equipment working within the proximity of high-voltage power lines.

The **PV8-PRO** combines microprocessor technology with ProxyVolt's proven detection circuitry to identify the electrostatic field of any AC high-voltage power line; no matter what the current.

The **PV8-PRO** introduces a new modular design featuring a concealed die-cast housing and a 7-inch touch-screen display, delivering operators a user-friendly interface via ProxyVolt's "Signature" application.

- One-Touch Exclusion Zone Setting
- PIN Protected User Interface
- Traverse Mode
- Acknowledge Timer
- On-Screen Proximity Graph & Proximity Integer
- Built-In Inclinometer
- System Safeguards
- 12 V or 24 V Operation
- Inputs / Outputs to Control External Devices & Audible Alarm State

PRE-CLEANERS

Series 9000 Pre-cleaner Powerful Ejective Technology
Increased Filter Life Means Decreased Maintenance Downtime

Air filter life is directly related to the amount of debris ingested through an engine's air intake. Installing a Sy-Klone Series 9000® Air Pre-cleaner as the first stage of an air intake system prevents the majority of heavier-than-air particles from entering the system. This results in longer air filter life, more efficient engine performance, and decreased maintenance expenses.

Series 9000 Models**Air Flow Range:**

Nine models in sizes 2" to 8" range from 10 - 1 400 CFM (0.28 - 39.64 m³/m) and much higher with multiple-unit installations.

Mounting & Equipment Types:

Mounts on all vertical and horizontal air-cleaner housings, on all machines, replacing tube body systems or internal pre-cleaners.

Maintenance:

Self-cleaning & routine maintenance-free.

Applications:

Off-road conditions, construction, mining, forestry, waste, agriculture, military, and more.

Debris Types:

Expels all types of mixed debris, including mud, snow, rain, leaves, sawdust, chaff, and dust. Heavier debris requires additional heavy debris screen, and Ag Screen is extremely effective against chaff.

The LX40 Series

The Telematics Device That Puts You in Control

More than just a device, **The LX40 Series** represents a game-changing platform for the telematics industry. With broad latitude to control device behaviour and communication, LX40's scripting capabilities enable true customisation. Telematics providers are empowered to exercise their creativity and create distinct value – or de-risk large projects – exactly as they need to. **Furthering flexibility** is the LX40's family of product variants, with a device to suit any deployment scenario. Choose the right hardware variant to cover simple tracking, vehicle CAN monitoring, or a myriad of other possibilities. With robust cellular coverage, remote management and update capabilities, and a variety of available accessories, **the LX40 Series has the options you need for deployment success.**

Highlights

Build highly customised telematics solutions.

Five device variants for varying deployment needs, all on one software platform.

Full control over the in-vehicle solution.

Remote device management platform for script management and configuration.

ALCOSCAN

T260015501

Alcohol Breathalyser with Ignition Interlock

This Interlock Breathalyser is designed to be fitted into vehicles to prevent drivers from starting a motor vehicle when they are confirmed to be under the influence of alcohol at a pre-set level.

The product consists of a handset for the breathalyser test and an interlock control box for the electrical connection to a vehicle.

Breathalyser Handset:

- Alcohol Sensor: Fuel Cell Sensor to detect alcohol in breath
- Temperature Sensor: Temperature detection, environment, breath, etc.
- Flow Sensor: Detects breath pressure & volume of exhaled air
- Altitude Sensors: Adjustment of breathing deviation according to altitude
- Breath sampling tube: the structure that accepts breathing under certain conditions
- Chamber: Maintains exhaled breath conditions (temperature & humidity)
- Pump: Structure that accepts a certain amount of breathing time.
- MCU: Management of measurement algorithm
- Memory: Stores the measured reference value and the measured result value
- Display: Displays the status and measurement result values
- Buzzer: Indicates the status and measurement result as sound

XIRGO X

KP2

**Modular HD Road-Facing/
Driver-Facing Dashcam**

True Flexibility in Video Telematics

The Xirgo Technologies KP2 modular windshield-mounted, road- and driver-facing dashcam offers forward visibility, Advanced Driver Assistance Systems (ADAS), and Driver State Monitoring (DSM) alerts. This product brings true flexibility in a cloud-based video telematics solution, that's sleek, plug and play, simple, and affordable.

Other impressive features of the product include its realtime in-cabin alerts such as fatigue monitoring, multiple speed geofence, severe shock, and pedestrian collision warning, which encourage proper driver behaviour. The system also has highly adaptable installation, and configurable edge AI.

Features

- GPS, 4 G/LTE, HD video capture, event detection, ADAS, DSM, and telematics in one
- Compatible with AIDE to reduce false-positive events
- 1 080 pixel HD video for road-facing and driver-facing views
- Supports up to 256 GB of storage
- Receive ADAS regardless of installation type
- Broad installation compatibility (passenger/light-duty OBDII and heavy-duty J1939)

Highlights

Flexible driver monitoring
installable now or later

Highly adaptable
installation

Enable configurable
edge AI

Realtime in-cabin alerts encourage
proper driver behaviour
