

# Committed to Keeping Africa's Resources Moving Safely!

## Your Auto-Electrical Partner of Choice!

With a meld of superior skills, decades of experience, an extensive African footprint and the right product range for the job, Trysome is your **Auto-Electrical Partner of Choice**.

As a leader in heavy-duty, auto-electrical products, associated technical services and collision avoidance systems in sub-Saharan Africa, Trysome plays a vital role in your business, offering technical back-up no matter where you are situated.

Our Field Service division comprises a team of 150 skilled, qualified technicians, providing product installation, on-site repairs, preventative maintenance contracts and the supply of 12/24 V parts, enabling 'service on demand'.

Let Trysome assist you to keep your staff and assets safe while operating at maximum capacity.

We supply anywhere in Africa!
